

# Sathwik Goundla

Email: 23n81a0581@gmail.com | LinkedIn: linkedin.com/in/sathwikgoundla | Location: Hyderabad, Telangana, India

## PROFESSIONAL SUMMARY

AI and Machine Learning enthusiast with hands-on experience in building practical AI solutions. Skilled in Python, machine learning algorithms, and data visualization. Experience developing Generative AI systems using LangChain and RAG pipelines, predictive ML models with XGBoost and Random Forest, and interactive data visualization platforms. Strong foundation in deep learning, NLP, and translating real-world problems into data-driven solutions.

## TECHNICAL SKILLS

**Programming Languages:** Python (NumPy, Pandas, Scikit-learn, XGBoost)  
**ML/DL Frameworks:** PyTorch, TensorFlow, Scikit-learn  
**Machine Learning:** Random Forest, XGBoost, SMOTE, Feature Engineering, Model Evaluation  
**Generative AI:** LangChain, FAISS, RAG Pipelines, LLMs, Embeddings  
**Data Visualization:** Streamlit, Plotly, Folium, Matplotlib  
**Model Explainability:** SHAP, LIME  
**Tools & Libraries:** Git, Jupyter, VS Code

## EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                       |
